Associate Product Manager candidate | Completed AI-first Product Management program, Airtribe | 4+ years leading projects across IT and startups

---

PROFESSIONAL SUMMARY

Product management professional who has completed the AI-first Product Management program at Airtribe and is seeking an Associate Product Manager role. For 4+ years I have run projects end to end, led cross-functional teams of up to 6, and turned unclear client and team needs into clear plans that were delivered on time.

- **Delivery:** ran 30+ client projects, 10+ at the same time, and cut turnaround by 15% with a process I designed.
- **Automation:** built Zapier, n8n and custom GPT workflows that removed repetitive manual work for project and content teams.
- **Product thinking:** completed 14 product case studies and built two products from zero to one, validating the simplest version before adding AI features.

AREAS OF EXPERTISE

- Product discovery and problem framing: user interviews, evidence gathering, and stating what the data can and cannot tell you
- Product strategy and prioritisation: growth loops, reward design, and scoping a V1 to what the team can validate
- PRDs, acceptance criteria and metrics: funnel and cohort analysis, and a written spec engineers can build from
- Cross-functional leadership with developers, designers, founders and clients
- Relevant qualities: ownership of decisions, clear written communication, and steady delivery under deadlines

SKILLS

Core Product Skills: Product discovery, PRDs and acceptance criteria, product metrics, funnel and cohort analysis, user interviews, prioritisation, stakeholder communication, growth loops and V1 scoping

AI and Automation: Claude, Claude Code, ChatGPT, Custom GPTs, Prompt Engineering, AI Agent Workflows, Zapier, n8n, Make, Google Apps Script, SQL, Amplitude

Project and Team: Cross-functional Leadership, Team Leadership, Project Planning, Agile and Kanban, Client Management, Process Improvement, Notion, ClickUp, Miro, Canva

Testing and Tools: Manual and Automation Testing, Test Case Design, Bug Tracking, Figma, Jira, Linear, Postman, GitHub

Languages: English, Tamil

NOTABLE ACHIEVEMENTS

- Cut shoot-to-delivery turnaround by 15% with a unified shoot-blocking system used across teams at The GOAT Media.
- Delivered 30+ personal branding projects and ran 10+ at once while leading a 6-member cross-functional team.
- Coordinated 10+ content shoots and produced 10+ short-form videos for the company's Instagram page.
- Completed 14 product case studies at Airtribe and built two products from zero to one: Raise, a live app for parents, and GymBuddy Fitness (V1 prototype).
- Certified in Product Management Launchpad (Airtribe, Oct 2026), Product Discovery and Product Management Basics (Pendo, Jul 2026), Claude 101 (Claude Academy, Sep 2026), Agents and Workflows (OpenAI, Aug 2026) and Elements of Agile (Miro, Sep 2026).

EXPERIENCE AND GROWTH

Progression: Oracle database support (IT) → project manager and team lead (startups) → project manager running 30+ branding projects → freelance project manager and software tester → product management.

Software Tester | The Bot Company
Oct 2026 – Present

- Perform manual testing to find bugs, usability issues and functional defects; write and execute test cases; automate tests to widen coverage.
- Report and track bugs, and validate fixes with the development team.

Freelance Project Manager | Nuvant Content Hub
Jan 2026 – Present

- Manage end-to-end personal and business branding projects as the primary client contact, coordinating editing, design and strategy teams to deliver on time.
- Run discovery and sales calls, client communication and project onboarding.

- Produce UGC and 10+ short-form videos for the company's Instagram page; design LinkedIn creatives in Canva.

Project Manager | The GOAT Media
Apr 2024 – Dec 2025

- Handled 30+ personal branding projects end to end, with 10+ running at the same time.
- Led a 6-member team: task allocation, early flagging of delays, blocker resolution, reporting and feedback loops.
- Built Zapier workflows to scrape and organise content, and custom ChatGPT tools to automate project management tasks.
- Worked with founders on execution planning and operational decisions.

Project Manager and Team Lead | Muskytten Technology Pvt Ltd
Sep 2023 – Mar 2024

- Managed product development lifecycles for web and mobile apps, including HEED (a healthcare platform for hospital doctors), Fashion Book, Benefit Flames, an OTT streaming platform and an organic products e-commerce site.
- Led development and design teams and designed the recruitment process and technical assessments.

Offshore Associate, Oracle DBA | HCLTech
Jan 2022 – Sep 2023

- Supported Oracle database operations and system stability for enterprise clients, including the Chubb Steady State and Lantmännen support projects.
- Worked with onshore teams on performance monitoring and escalations.

PRODUCT PROJECTS

Raise: Live Web App for Parents (Airtribe PM Capstone)
Next.js, React, TypeScript, Tailwind CSS, Gemini API, Vercel | 2026

- Built a live app that helps parents start sensitive conversations with teens. It writes a short plan, then asks what happened afterwards.
- Redesigned the first build after finding it collected opinions rather than real outcomes, and added the follow-up loop.

GymBuddy Fitness: Beginner Workout App (V1 Prototype)
Own product idea | 2026

- Scoped a V1 around a simple workout, a monthly target and a streak. Held back AI personalisation until behaviour data could justify it.

Product Case Studies (Airtribe Product Management Program)
14 case studies | 2026

- Airbnb India: growth strategy. Zepto: cart review and reward redesign. PulseReel: trust and safety PRD. Zomato: funnel and cohort metrics. Nykaa: product teardown.

EDUCATION

B.E., Electrical and Electronics Engineering, Sri Sairam Engineering College | 2017 – 2021 | 76%

Higher Secondary (XII), Sri Vidya Mandir School | 2017 | 83%
