Saadurya K V

Aspiring product manager · 4+ years running projects in IT and startups

Chennai, Tamil Nadu +91 9025146944 saadumukil1426@gmail.com linkedin.com/in/saadurya-k-v github.com/saadurya

SUMMARY

Aspiring product manager with 4+ years as a project manager across IT and startups, strong in client management, cross-functional coordination, process improvement and AI-assisted workflows. Worked with development, design, strategy and content teams. Now moving into product management, with 14 product case studies and two 0 to 1 products, Raise and GymBuddy.

PRODUCT WORK

Raise · 0 to 1, live app for parents of teenagers — Oct 2026

- Researched 28 parents, 15 teenagers and 31 interviews (24 of 28 parents had put a hard talk off for over six months). Defined success as a completed conversation, 40% target from 20+ parents, and wrote the PRD, AI instructions, guardrail metrics and risk table.
- Shipped a live app (raise-bloom.vercel.app). The first build got opinions, not accounts (9 of 9 said helpful, 1 of 8 described a conversation), so I rebuilt it to ask what happened: 214 tests passing, 30 of 30 release-test requests answered.

GymBuddy · 0 to 1, fitness, PML Product Challenge — Sep 2026

- Wrote the PRD, case study and V1 prototype for beginner gym-goers in India. V1 is a simple workout, a monthly target and a streak; personalised AI is held back until there is behaviour data.

Product case studies · Airtribe Product Management Launchpad — 2026

- 12 more case studies across growth, strategy, specs, research, UX and systems, including the PulseReel Circuit Breaker PRD, Zepto Cart Review, Airbnb India growth loops, Zomato funnel analysis and QuickBite system design. Built BrightSpring and Orbitly with Claude Code: design system, reviewer subagent, skills and agents, each tested by making it fail on purpose.

EXPERIENCE

Software Tester · The Bot Company, Chennai — Nov 2026 – Present

- Test applications by hand for bugs, usability issues and functional defects; write and run test cases and automate tests; report and track bugs and check fixes with the team.

Freelance Project Manager · Nuvant Content Hub, Chennai — Jan 2026 – Present

- Manage end-to-end client projects as the primary point of contact, coordinating editing, design and strategy teams.
- Support business development through sales calls and client onboarding.
- Create UGC videos for client projects and 10+ short-form videos for the company's Instagram page; design LinkedIn creatives in Canva.

Project Manager · The GOAT Media, Chennai — Apr 2024 – Dec 2025

- Handled 30+ personal branding projects as the main client contact, 10+ at once; coordinated 10+ shoots.
- Led a team of 6: task allocation, flagging delays early, resolving blockers, and maintaining documentation and feedback loops.
- Built Zapier workflows that scrape and organise content for social media managers.
- Developed custom ChatGPT tools and task automations that cut manual work for project managers and content teams.
- Created a unified shoot-blocking system for cross-team work, giving a 15% faster turnaround time.

Project Manager & Team Lead · Muskytten Technology Pvt Ltd, Puducherry — Sep 2023 – Mar 2024

- Worked with development and design teams on web and app projects, including OTT, dating and e-commerce.
- Designed the recruitment process and technical assessments, ran interviews and onboarding, and prepared HR documents and freelance agreements.

Offshore Associate (GET), Oracle DBA · HCLTech, Chennai — Jan 2022 – Sep 2023

- Supported Oracle database operations and stability for enterprise clients (Chubb Steady State, Lantmännen), working with onshore teams on escalations.
